

Call for AMDO2004 Tutorial Proposals

The AMDO2004 Organizing Committee is soliciting proposals for tutorials and short courses to be held in conjunction with AMDO 2004
Palma de Mallorca, Spain, Setember 22-24, 2004
<http://dmi.uib.es/research/GV/amdo2004>

AMDO2004 tutorials will be held on Setemeber 20-21th, 2004. The tutorials will complement and enhance the scientific programme of AMDO-2004. The purpose is to provide authoritative, focused, concise, and up-to-date introductions to various special topics, especially in topics covered by the workshop (Deformable Objetes, Human Motion & Tracking, Virtual Reality & HCI, etc). Each tutorial is expected to be between 3 to 4 hours long.

The deadline for the proposals is **JUNE 15, 2004**. Earlier submission is encouraged. Proposals should include:

- Tutorial title
- Expected duration
- Brief description of topics covered
- Short biography(ies) of instructor(s)

The AMDO2004 Organising Committee will select tutorials and short courses suitable for AMDO2004. We reserve the right to cancel any tutorial or short course if the number of registered attendees is too low to support the costs related to organising and running the tutorial.

Proposals will be reviewed by the AMDO2004 Organizing & Program Committee and acceptance will be announced by **JULY 30, 2004**. Please, submit your proposal in electronic form (plain text, PostScript, or PDF) to:
